Re: AB 479 (Chesbro) Solid Waste: diversion- **Oppose**

The Solid Waste Association of North America (SWANA), the largest association of solid waste professionals (7,700 members), is committed to advancing the practices of environmentally and economically sound management of municipal solid waste. On behalf of their California Chapters, I am writing to **oppose** AB 479 (Chesbro) regarding the diversion of solid waste.

AB 479, if enacted, would increase the mandatory diversion rate from 50 percent to 60 percent by January 1, 2015 and 75 percent by January 1, 2020. The bill would also require local governments to adopt and enforce a mandatory commercial recycling ordinance within their jurisdictions. Lastly, the bill would increase the State waste disposal tipping fee from its current rate of \$1.40 to \$3.90 per ton. The additional revenue may be provided to local governments, subject to certain restrictions, all at the sole discretion of the California Integrated Waste Management Board.

AB 479 recognizes the need for jurisdictions to commit resources to meet these new requirements by increasing the solid waste disposal fee and returning portions of this increase to local governments. However, we feel that the \$2.50 increase to the tipping fee is too steep and could lead to an increase in illegal dumping. Second, we fear that much of this increase will be absorbed by the State to address its own fiscal shortfalls, maintain the Waste Board's functions, and/or offset administrative costs to implement programs. And finally, as steep as the increase is, the amount being returned to jurisdictions is likely not to equate to the costs of meeting the increased diversion requirement.

For these reasons, SWANA regrettably must **oppose** AB 479 (Chesbro).

Sincerely,

Paul Yoder
Legislative Advocate
