<p>AB 3 V. Manuel Perez</p> <p>Workforce development: Renewable Energy Workforce Readiness Initiative.</p>	<p>ASSEMBLY SECOND READING 06/01/2009-Read second time and amended. Ordered returned to second reading.</p> <p>06/02/09 1 ASM ASSEMBLY SECOND READING FILE</p>	<p>Existing law, the California Workforce Investment Act, establishes the California Workforce Investment Board (CWIB) , which is the body responsible for assisting the Governor in the development, oversight, and continuous improvement of California's workforce investment system, and prescribes the functions and duties of the board with regard to the implementation and administration of workforce training and development programs. Existing law establishes the Green Collar Jobs Council (GCJC) as a special committee in the CWIB, comprised of specified members, to assist in providing workforce development and job training relating to green collar jobs. This bill would require the CWIB , by January 1, 2011, in consultation with the Green Collar Jobs Council (GCJC), to establish a Renewable Energy Workforce Readiness Initiative to ensure green collar career placement and advancement opportunities within California's renewable energy generation, manufacturing, construction, installation, maintenance, and operation sectors that is targeted towards specified populations. The bill would require that the initiative provide guidance to local workforce investment boards on how to establish comprehensive green collar job assessment, training, and placement programs that reflect the local and regional economies, as prescribed. The bill would require the CWIB, in developing the initiative, to assist the local workforce investment boards in collecting and analyzing specified labor market data, in order to assess accurate local or regional industry cluster workforce development and training needs. The CWIB would be required to submit to the Legislature, by January 1, 2013 , a report on the implementation of the initiative. The bill would require the board to implement the provisions of the bill using moneys made available to the CWIB from funds appropriated to the state pursuant to the American Recovery and Reinvestment Act of 2009, to the extent that those funds are available for that purpose .</p> <p>Last Amended on 06/01/2009</p>	
<p>AB 21 Lowenthal, Bonnie (D)</p> <p>Pesticides: methyl bromide: study and report.</p>	<p>SENATE SENATE 06/01/2009-Read third time, passed, and to Senate.</p>	<p>Existing law requires the Director of Pesticide Regulation to adopt regulations that govern the use of methyl bromide and chloropicrin as field fumigants, and authorizes the director to prescribe the time when, and the conditions under which, methyl bromide and chloropicrin may be used in different areas of the state. This bill would require the Department of Pesticide Regulation to conduct a review of the assessment undertaken pursuant to the 8th meeting of the Conference of the Parties to the Vienna Convention for the Protection of the Ozone Layer and the 20th meeting of the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer by the Technology and Economic Assessment Panel regarding methyl bromide, and comment on the findings of the panel .</p> <p>Last Amended on 04/02/2009</p>

Bill ID/Topic	Location	Summary	Position
<p>energy resources: generation and transmission.</p>	<p>(Ayes 12. Noes 5.) (May 28). Read second time. To third reading.</p> <p>06/02/09 162 ASM ASSEMBLY THIRD READING FILE</p>	<p>electricity, including electrical corporations, community choice aggregators, and electric service providers, but not including local publicly owned electric utilities, purchase a specified minimum percentage of electricity generated by eligible renewable energy resources, as defined, in any given year as a specified percentage of total kilowatthours sold to retail end-use customers each calendar year (renewables portfolio standard). The renewables portfolio standard requires the PUC to implement annual procurement targets for each retail seller to increase its total procurement of eligible renewable energy resources by at least an additional 1% of retail sales per year so that 20% of its retail sales are procured from eligible renewable energy resources no later than December 31, 2010. Existing law requires the State Energy Resources Conservation and Development Commission (Energy Commission) to certify eligible renewable energy resources and to design and implement an accounting system to verify compliance with the renewables portfolio standard by retail sellers. Under existing law the governing board of a local publicly owned electric utility is responsible for implementing and enforcing a renewables portfolio standard for the utility that recognizes the intent of the Legislature to encourage renewable resources, while taking into consideration the effect of the standard on rates, reliability, and financial resources and the goal of environmental improvement. This bill would recast the renewables portfolio standard program, to be operative on January 1, 2011, to require that a retail seller and a local publicly owned electric utility: (1) procure at least 20% of the electricity delivered to its retail customers from eligible renewable energy resources by December 31, 2010, (2) procure at least 25% of the electricity delivered to its retail customers from eligible renewable energy resources by December 31, 2015, and (3) procure at least 33% of the electricity delivered to its retail customers from eligible renewable energy resources by December 31, 2020. The PUC would be responsible for implementing these requirements for retail sellers, while the governing board would be responsible for implementing these requirements for a local publicly owned electric utility. The bill would require the PUC to establish procurement targets for retail sellers that are sufficient to reach the above-stated requirements. The bill would require that an electrical corporation's renewable energy procurement plan include a process that provides criteria for the rank ordering and selection of eligible renewable energy resources to comply with the above-stated procurement requirements so that each corporation's total renewables portfolio benefits ratepayers. The bill would require the PUC to annually establish and adopt a benchmark price for electricity generated by an eligible renewable energy resource, for terms corresponding to the length of contracts, in consideration of specified matter, and for each electrical corporation, to establish a limitation on the total costs expended above the benchmark prices for procurement of electricity pursuant to the renewables portfolio standard and would prohibit the limitation from exceeding 5% of the electrical corporation's revenue requirements. The bill would require the PUC to allow an electrical corporation or other retail seller to limit its procurement to the quantity of eligible renewable energy resources that can be purchased at or below the cost limitation if insufficient to support the total costs expended above the benchmark price. The bill would revise existing law with respect to the use of renewable energy credits to meet the renewables portfolio standard procurement requirements. The bill would authorize</p>

		<p>the PUC to modify certain requirements for an electrical corporation with 60,000 or fewer customer accounts in the state that serves retail end-use customers outside the state and provides that a public utility district that receives all of its electricity from hydroelectric generation pursuant to a preference right created by a specified federal law is in compliance with the renewables portfolio standard. This bill contains other related provisions and other existing laws.</p> <p>Last Amended on 05/06/2009</p>	
<p><u>AB 68</u> <u>Brownley</u> (D)</p> <p>Solid waste: single-use carryout bags.</p>	<p>ASSEMBLY APPR. SUSPENSE FILE 06/01/2009-In committee: Hearing postponed by committee. (Refers to 5/28/2009 hearing)</p>	<p>Existing law requires an operator of a store, as defined, to establish an at-store recycling program that provides to customers the opportunity to return clean plastic carryout bags to that store. Existing law imposes various requirements on at-store recycling programs, including requiring a store to maintain records describing the collection, transport, and recycling of plastic carryout bags collected by the store. This bill would, on and after July 1, 2010, prohibit a store, as defined, from providing a single-use carryout bag to a customer unless the store charges a fee of not less than \$0.25 per bag at the point of sale. The bill would exempt certain customers from paying the fee. The bill would establish the Bag Pollution Fund in the State Treasury and would require a store to remit the single-use carryout bag fees, less a specified amount, to the State Board of Equalization for deposit in that fund. The bill would prohibit a store from distributing a single-use carryout bag that is not a plastic or compostable carryout bag that meets specific requirements. This bill contains other related provisions and other existing laws.</p> <p>Last Amended on 04/23/2009</p>	<p>Pending Review</p>
<p><u>AB 85</u> <u>Berryhill, Tom</u> (R)</p> <p>Junk dealers and recyclers.</p>	<p>SENATE RLS. 05/18/2009-In Senate. Read first time. (Refers to 5/28/2009 hearing)	<p>as defined, from providing a single-use carryout bag, including a green carryout bag, to a customer unless the store charges a fee of not less than \$0.25 per bag at the point of sale. The bill would exempt certain customers from paying the fee. The bill would establish the Bag Pollution Fund in the State Treasury and, by January 31, 2011, would require a store that collects the single-use carryout bag fees to remit the fees, less a specified amount to be used as required, to the State Board of Equalization for deposit in that fund, and do so on a quarterly basis thereafter. This bill contains other related provisions and other existing laws.</p> <p>Last Amended on 04/27/2009</p>	
<p>AB 147 Saldana (D)</p> <p>Hazardous waste: electronic waste.</p>	<p>ASSEMBLY SECOND READING 06/01/2009-Read second time and amended. Ordered returned to second reading.</p> <p>06/02/09 18 ASM ASSEMBLY SECOND READING FILE</p>	<p>Existing law requires the Department of Toxic Substances Control to adopt regulations to prohibit an electronic device from being sold or offered for sale in this state if the electronic device is prohibited from being sold or offered for sale in the European Union on and after its date of manufacture, due to the presence of certain heavy metals. Existing law requires these regulations to take effect January 1, 2007, or on or after the date that the Directive 2002/95/EC, adopted by the European Parliament and the Council of the European Union on January 27, 2003 (Directive 2002/95/EC), takes effect, whichever date is later. Existing law defines the term "electronic device," for purposes of those provisions, to have the same meaning, with reference to the Electronic Waste Recycling Act of 2003, as "covered electronic device" which is defined as a video display device that is identified by the department, pursuant to specified regulations, as a presumed hazardous waste when discarded. This bill would require a manufacturer of an electronic device to prepare and, at the request of the department, submit to the department within 28 days of the date of the request, technical documentation or other information showing that the electronic device sold or offered for sale by that manufacturer is not prohibited from sale. This bill contains other related provisions and other existing laws.</p> <p>Last Amended on 06/01/2009</p>	
<p>AB 177 Price (D)</p> <p>Economic development: California Urban Communities Collaborative Initiative Act of 2009.</p>	<p>ASSEMBLY 2 YEAR 05/01/2009-Failed Deadline pursuant to Rule 61(a)(2). (Last location was J., E.D. & E. on 02/02/2009)</p>	<p>Existing law provides for various programs and activities in the development of economic opportunities for businesses in the state. This bill would, until January 1, 2016, enact the California Urban Communities Collaborative Initiative Act of 2009. The bill would create the California Urban Communities Collaborative Initiative in state government. As part of the initiative, the bill would establish an Inter-Agency Initiative Workgroup, partnership, and local committees for designated project areas and assign these entities specified duties with respect to coordinating and improving government efforts for at-risk urban communities, as defined. The bill would require the workgroup to report annually to the Governor and Legislature on its activities. This bill contains other related provisions and other existing laws.</p> <p>Last Amended on 04/23/2009</p>

Bill ID/Topic	Location	Summary	Position
<p>AB 210 Hayashi (D)</p> <p>Green building standards.</p>	<p>SENATE T. & H. 05/21/2009-Referred to Coms. on T. & H. and EQ.</p> <p>06/16/09 1:30 p.m. - John L. Burton Hearing Room (4203) SEN TRANSPORTATION AND HOUSING</p>	<p>The California Building Standards Law provides for the adoption of building standards by state agencies by requiring all state agencies that adopt or propose adoption of any building standard to submit the building standard to the California Building Standards Commission for approval and adoption. This bill would specify that the requirements and regulations that a city or county is authorized to change or modify includes, but is not limited to, green building standards. This bill contains other related provisions and other existing laws.</p>	
<p>AB 222 Adams (R)</p> <p>Energy: biofuels.</p>	<p>SENATE SENATE 06/01/2009-Read third time, passed, and to Senate.</p>	<p>Existing law establishes the Public Interest Research, Development, and Demonstration Fund in the State Treasury, and provides that the money collected by the public goods charge to support cost-effective energy efficiency and conservation activities and public interest energy research, development, and demonstration projects not adequately provided by competitive and regulated markets, be deposited in the fund for use by the State Energy Resources Conservation and Development Commission (Energy Commission). Existing law requires the Energy Commission to use those funds to develop, implement, and administer the Public Interest Research, Development, and Demonstration Program to develop technologies to, among other things, improve environmental quality, enhance electrical system reliability, increase efficiency of energy-using technologies, lower electrical system costs, or provide other tangible benefits to electric utility customers. Existing law defines "in-state renewable electricity generation facility" for the purposes of the program to include, among other things, a facility that uses municipal solid waste conversion. This bill would instead define "in-state renewable electricity generation facility" to include a facility that uses conversion at a biorefinery. The bill would define "biorefinery" to mean a facility that uses a noncombustion thermal, chemical, biological, or mechanical conservation process, or a combination of those processes, to produce electricity or a renewable fuel from carbonaceous materials. This bill contains other related provisions and other existing laws.</p> <p>Last Amended on 05/28/2009</p>	Support
<p>AB 231 Huffman (D)</p> <p>California Global Warming Solutions Act of 2006: Climate Protection Trust Fund.</p>	<p>ASSEMBLY THIRD READING 05/29/2009-From committee: Do pass. (Ayes 11. Noes 5.) <p>AB 238 Adams (R)</p> <p>Renewable energy resources.</p>	<p>ASSEMBLY PRINT 02/10/2009-From printer. May be heard in committee March 9.</p>	<p>Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including electrical corporations, as defined. The Public Utilities Act imposes various duties and responsibilities on the commission with respect to the purchase of electricity and requires the commission to review and adopt a procurement plan and a renewable energy procurement plan for each electrical corporation pursuant to the California Renewables Portfolio Standard Program. The renewables portfolio standard program requires that a retail seller of electricity purchase a specified minimum percentage of electricity generated by eligible renewable energy resources, as defined, in any given year as a specified percentage of total kilowatthours sold to retail end-use customers each calendar year. Existing law includes legislative findings and declarations relative to the program that include a declaration that new and modified electric transmission facilities may be necessary to facilitate the state achieving its renewables portfolio standard targets. This bill would revise the legislative findings and declarations to declare that new and modified electric transmission facilities, including the employment of smart grid technologies, may be necessary to facilitate the state achieving its energy efficiency goals and renewables portfolio standard targets.</p>	
<p>AB 274 Portantino (D)</p> <p>Solid waste: landfills: closure plans.</p>	<p>SENATE SENATE 06/01/2009-Read third time, passed, and to Senate.</p>	<p>The California Integrated Waste Management Act of 1989, which is administered by the California Integrated Waste Management Board, requires the owner or operator of a solid waste landfill, among other things, to prepare an initial estimate of closure and postclosure maintenance costs and to submit to the regional water board, the local law enforcement agency, and the board, a plan for the closure of the solid waste landfill and a plan for the postclosure maintenance of the solid waste landfill. A violation of these provisions is a misdemeanor. This bill would prohibit the owner or operator of a closed solid waste landfill that is subject to a closure or a postclosure maintenance plan from selling or offering for sale any portion of a closed waste management unit unless the intended purchaser provides evidence, to the satisfaction of the board, of his or her ability to meet the financial assurance requirements of the act. By creating a new crime, the bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.</p>	<p>Watch</p>
<p>AB 283 Chesbro (D)</p> <p>Solid waste: extended producer responsibility program.</p>	<p>ASSEMBLY APPR. 05/28/2009-In committee: Set, second hearing. Held under submission.</p>	<p>The California Integrated Waste Management Act of 1989, administered by the California Integrated Waste Management Board, is required to reduce, recycle, and reuse solid waste generated in the state to the maximum extent feasible in an efficient cost-effective manner to conserve water, energy, and other natural resources. This bill would create the California Product Stewardship Act of 2009 and would require the board to administer the program. The bill would require the board to adopt regulations by July 1, 2011, in order to implement the program to provide environmentally sound product stewardship protocols that encourage producers to research alternatives during the product design and packaging phases to foster cradle-to-cradle producer responsibility and reduce the end-of-life environmental impacts of the product. This bill contains other related provisions.</p>	<p>Support if Amended</p>

AB 993 Fletcher (R) Solid waste: rigid plastic containers.	ASSEMBLY PRINT 03/02/2009-Read first time.	Existing law requires rigid plastic packaging containers sold or offered for sale in this state to meet specified criteria, including, but not limited to, that the container be made from 25% postconsumer material. This bill would make a technical, nonsubstantive change to that provision.	
AB 994 Fong (D) Buildings: Integrated Waste Management Board.	ASSEMBLY 2 YEAR 05/01/2009-Failed Deadline pursuant to Rule 61(a)(2). (Last location was NAT. RES. on 04/15/2009)	Under the California Integrated Waste Management Act, the Integrated Waste management Board is responsible for carrying out the act to reduce, recycle, and reuse solid waste generated in the state to the maximum extent feasible in an efficient and cost-effective manner. This bill would require the board to identify policy changes that may accelerate adoption of high performance building practices, as well as create educational training centers in state government and higher education facilities. This bill would provide that the board is required to carry out these provisions to the extent that funding is obtained from local, federal, public, or other nonstate sources. Last Amended on 04/13/2009	
AB 1016 Villines (R) Energy: commission and department.	ASSEMBLY U. & C. 05/20/2009-Re-referred to Com. on U. & C.	Existing law establishes the State Energy Resources Conservation and Development Commission, the California Consumer Power and Conservation Financing Authority, and the Electricity Oversight Board with jurisdiction related to energy matters. Existing law provides the California Public Utilities Commission with jurisdiction over the certification of natural gas and electric facilities. Existing law also provides the Office of Planning and Research, the Department of Water Resources, the Department of General Services, and the Office of the State Architect with jurisdiction over certain energy-related matters. Existing law provides the State Energy Resources Conservation and Development Commission with the jurisdiction over the certification of thermal powerplants. This bill would abolish the State Energy Resources and Conservation Commission, the California Consumer Power and Conservation Financing Authority, and the Electricity Oversight Board . The bill would create the Department of Energy, headed by a Secretary of Energy, and would create the California Energy Commission and the Office of Energy Market Oversight within the department. The bill would provide for the creation of various divisions and subdivisions as deemed necessary by the secretary. The secretary would be appointed by, and hold office at the pleasure of, the Governor, subject to confirmation by the Senate. The bill would authorize the Governor to appoint an Assistant Secretary of Energy who would serve at the pleasure of the secretary. This bill contains other related provisions and other existing laws. Last Amended on 05/19/2009	Watch

Bill ID/Topic	Location	Summary	Position
<p>AB 1033 Nielsen (R)</p> <p>California Global Warming Solutions Act of 2006: greenhouse gas emissions: regulation.</p>	<p>ASSEMBLY 2 YEAR 05/01/2009-Failed Deadline pursuant to Rule 61(a)(2). (Last location was NAT. RES. on 04/27/2009)</p>	<p>The California Global Warming Solutions Act of 2006 requires the State Air Resources Board to adopt regulations to require the reporting and verification of emissions of greenhouse gases and to monitor and enforce compliance with the reporting and verification program, and requires the state board to adopt a statewide greenhouse gas emissions limit equivalent to the statewide greenhouse gas emissions level in 1990 to be achieved by 2020. The state board is required to adopt greenhouse gas emissions limits and emission reduction measures by regulation to achieve the prescribed emission reductions. This bill would require a state or local agency, before adopting or amending a regulation after January 1, 2010, to evaluate and measure the effectiveness of any regulations adopted by the state or local agency on or before January 1, 2010, to reduce greenhouse gas emissions, and obtain an independent 3rd-party economic impact analysis of any proposed regulation that the state or local agency determines would impose aggregate costs of \$1,000,000 or more on greenhouse gas emission sources subject to the proposed regulation, irrespective of the economic or noneconomic benefits of the regulation. This bill contains other related provisions.</p> <p>Last Amended on 04/02/2009</p>	
<p>AB 1043 Fong (D)</p> <p>Biofuels.</p>	<p>ASSEMBLY PRINT 03/02/2009-Read first time.</p>	<p>The California Global Warming Solutions Act of 2006 requires the State Air Resources Board to adopt a statewide greenhouse gas emissions limit equivalent to the statewide greenhouse gas emissions level in 1990 to be achieved by 2020. The act requires the state board to adopt rules and regulations in an open public process to achieve the maximum technologically feasible and cost-effective greenhouse gas emission reductions. This bill would provide that it is the intent of the Legislature to enact legislation to advance biofuels and other clean fuel technologies by adopting policies that promote the production and purchase of biofuels and other clean fuel technologies in California as a means to reduce greenhouse gas emissions and reduce California's reliance on petroleum fuels.</p>	<p>Watch</p>
<p>AB 1078 Feuer (D)</p> <p>Hazardous materials: toxic substances.</p>	<p>SENATE RLS. 05/21/2009-Referred to Com. on RLS.</p>	<p>Existing law requires the Department of Toxic Substances Control, in the California Environmental Protection Agency, to establish a Toxics Information Clearinghouse for the collection, maintenance, and distribution of specific chemical hazard traits and environmental and toxicological endpoint data. Existing law defines various terms for the purposes of those provisions, including "consumer product." This bill would make a technical, clarifying change to that definition . This bill contains other related provisions.</p> <p>Last Amended on 05/06/2009</p>

<u>AB 1112</u> <u>Blakeslee</u> (R) Hazardous waste: management.	ASSEMBLY 2 YEAR 05/01/2009-Failed Deadline pursuant to Rule 61(a)(2). (Last location was E.S. & T.M. on 04/28/2009)	Existing law authorizes the Department of Toxic Substances Control to grant a variance from the requirements regulating the management of hazardous waste, if the department makes specified findings. Existing law also requires the department to classify as nonhazardous waste any fly ash, bottom ash, and flue gas emission control residues generated from a biomass combustion process, as specified. This bill would require the department, to the extent it does not violate federal law, to classify as nonhazardous waste petroleum contact water and petroleum tank bottoms and sludge, as defined. Last Amended on 04/13/2009	Support
<u>AB 1131</u> <u>Feuer</u> (D) Hazardous materials: green chemistry and accidental releases.	ASSEMBLY APPR. 05/28/2009-In committee: Set, second hearing. Held under submission.	Existing law requires the Department of Toxic Substances Control to establish programs for hazardous waste source reduction. This bill would additionally require the department to establish programs for life cycle toxic reduction to reduce the use, generation, release, or disposal of a chemical of concern as identified by the department during a product life cycle. This bill contains other related provisions and other existing laws. Last Amended on 04/20/2009	Watch
<u>AB 1141</u> <u>Calderon, Charles</u> (D) Carryout bags.	ASSEMBLY 2 YEAR 05/01/2009-Failed Deadline pursuant to Rule 61(a)(2). (Last location was NAT. RES. on 04/28/2009)	The California Integrated Waste Management Act of 1989, administered by the California Integrated Waste Management Board, among other things, until January 1, 2013, requires the operator of a store, as defined, to establish an at-store recycling program that provides an opportunity for a customer of the store to return to the store clean plastic carryout bags, as defined. The act imposes requirements for that program. The act includes legislative findings and declarations that certain matters concerning plastic carryout bags are matters of statewide interest and concern and generally prohibits a city, county, or other public agency from adopting, implementing, or enforcing specified related ordinances, resolutions, regulations, or rules, unless otherwise authorized. This bill would extend the provisions regarding the at-store recycling program for plastic carryout bags until January 1, 2017, and define the term "single use carryout bag" for those purposes. This bill contains other related provisions. Last Amended on 04/13/2009	Pending Review
<u>AB 1150</u> <u>Gaines</u> (R) Integrated waste management.	ASSEMBLY 2 YEAR 05/01/2009-Failed Deadline pursuant to Rule 61(a)(2). (Last location was NAT. RES. on 04/27/2009)	The California Integrated Waste Management Act of 1989, administered by the California Integrated Waste Management Board, is required to reduce, recycle, and reuse solid waste generated in the state to the maximum extent feasible in an efficient cost-effective manner to conserve water, energy, and other natural resources. This bill would abolish the board and transfer all of its authority, duties, powers, purposes, responsibilities, and jurisdiction to the Department of Conservation and the Department of Toxic Substances Control, as described. <p><u>AB 1581</u> Committee on Natural Resources</p> <p>Solid waste: recycling market development.</p>	<p>SENATE RLS. 05/21/2009-Referred to Com. on EQ.</p>	<p>The California Integrated Waste Management Act of 1989, which is administered by the California Integrated Waste Management Board, establishes an integrated waste management program. The act authorizes a local governing body, as defined, to propose eligible parcels of property within its jurisdiction as a recycling market development zone, as defined, and to apply to the board for designation as a recycling market development zone. The board is authorized to designate or redesignate recycling market development zones for persons applying for that designation. The act requires a parcel of property designated as a recycling market development zone to retain that designation for 10 years . This bill , instead, would require a recycling market development zone to retain that designation for 10 years or until the local governing body repeals the designation, whichever is sooner. The bill also would contain a legislative finding and declaration that cities and counties are encouraged to propose recycling market development zones to stimulate economic development and to create green jobs .</p> <p>Last Amended on 04/23/2009</p>	
<p><u>ACR 14 Niello</u> (R)</p> <p>California Global Warming Solutions Act of 2006.</p>	<p>ASSEMBLY APPR. 04/27/2009-ASM. NAT. RES. Vote - Be adopted and be re-referred to the Committee on Appropriations.</p>	<p>This measure would call upon the State Air Resources Board, prior to any regulatory action being taken consistent with the scoping plan for the implementation of the California Global Warming Solutions Act of 2006, to perform an economic analysis that will give the State of California a more complete and accurate picture of the costs and benefits of the act's implementation. The measure would also call upon the Governor to use the authority granted by the act to adjust any applicable deadlines for regulations.</p> <p>Last Amended on 03/27/2009</p>	
<p><u>SB 14 Simitian</u> (D)</p> <p>Utilities: Renewable energy resources.</p>	<p>ASSEMBLY U. & C. 05/11/2009-To Coms. on U. & C. and NAT. RES.</p>	<p>Under existing law, the Public Utilities Commission (PUC) has regulatory authority over public utilities, including electrical corporations, as defined. Existing law requires the PUC to require the state's 3 largest electrical corporations, Pacific Gas and Electric Company, San Diego Gas and Electric, and Southern California Edison, to identify a separate electrical rate component to fund programs that enhance system reliability and provide in-state benefits. This rate component is a nonbypassable element of local distribution and collected on the basis of usage. Existing PUC resolutions refer to the nonbypassable rate component as a "public goods charge." The public goods charge moneys are collected to support cost-effective energy efficiency and conservation activities, public interest research and development not adequately provided by competitive and regulated markets, and renewable energy resources. This bill would revise the Renewable Energy Resources Program to state the intent of the Legislature to increase the amount of electricity generated from eligible renewable energy resources per year, so that amount equals at least 20% of total retail sales of electricity in California per year by December 31, 2010, and 33% by December 31, 2020. This bill contains other related provisions and other existing laws.</p>

<p><u>SB 228</u> <u>DeSaulnier</u> (D)</p> <p>Plastic bags: compostable plastic bags.</p>	<p>SENATE APPR. SUSPENSE FILE 05/28/2009-Set, first hearing. Held in committee and under submission.</p>	<p>The California Integrated Waste Management Act of 1989, administered by the California Integrated Waste Management Board, prohibits a person from selling a plastic bag in this state that is labeled with the term "compostable" or "marine degradable" unless, at the time of sale, the plastic bag meets specified standards for those types of bags. This bill would require , beginning July 1, 2010, a manufacturer of a compostable plastic bag meeting those standards to ensure that the compostable plastic bag is readily and easily identifiable from other plastic bags. The bill would define "readily and easily identifiable," to include labeling with a boardapproved certification logo. The bill would prohibit a compostable plastic bag sold in the state from displaying a chasing arrow resin identification code or recycling type of symbol in any form. The bill would require the manufacturers or suppliers of compostable bags to submit a yearly report to the board containing certain information, subject those manufacturers or suppliers to audit by the board, and require the board to refer a false or misleading certification or other information reported by those manufacturers or suppliers to the Attorney General for prosecution.</p> <p>Last Amended on 05/07/2009</p>	<p>Pending Review</p>
<p><u>SB 230</u> <u>Cogdill</u> (R)</p> <p>Waste tire haulers: registration.</p>	<p>ASSEMBLY NAT. RES. 05/21/2009-To Com. on NAT. RES.</p>	<p>Existing law requires every person who engages in the transportation of waste or used tires to hold a valid waste and used tire hauler registration issued by the California Integrated Waste Management Board, and requires a registered waste and used tire hauler to only transport waste or used tires to a facility that meets the conditions for being permitted, excluded, exempted, or authorized to accept waste and used tires, or to a facility that lawfully accepts waste or used tires for reuse or disposal. Existing law exempts certain persons from registration if the person meets at least one of 8 specified standards, including a person, who is not a waste tire generating business who is transporting waste or used tires to an amnesty day event or to an authorized location, and has written authorization from the local enforcement agency . This bill would additionally exempt from the waste and used tire hauler registration requirements, a person transporting illegally dumped waste or used tires to an amnesty day event or to an authorized location who has received written authorization, which includes specific conditions and dates and documentation that a police report has been filed for the illegally dumped</p>

<p><u>SB 295</u> <u>Dutton</u> (R)</p> <p>California Global Warming Solutions Act of 2006.</p>	<p>SENATE E.Q. 05/20/2009-Set, second hearing. Failed passage in committee. (Ayes 3. Noes 4. Page 992.) Reconsideration granted.</p>	<p>The California Global Warming Solutions Act of 2006 requires the State Air Resources Board to adopt regulations to require the reporting and verification of emissions of greenhouse gases and to monitor and enforce compliance with the reporting and verification program, and requires the state board to adopt a statewide greenhouse gas emissions limit equivalent to the statewide greenhouse gas emissions level in 1990 to be achieved by 2020. The act requires the state board to prepare and approve a scoping plan for achieving the maximum technologically feasible and cost-effective reductions in greenhouse gas emissions. The state board is required to evaluate the total potential costs and total potential economic and noneconomic benefits of the plan. The state board is required by January 1, 2011, to adopt greenhouse gas emissions limits and emission reduction measures by regulation to achieve the prescribed emission reductions. This bill would require the state board to complete a study to reevaluate the evaluation of costs discussed above, and provide this study to the Legislature by October 1, 2009. The state board would be required to report to the Legislature by November 1, 2009, on whether the revised analysis has led, or will lead, to any changes to the scoping plan, and whether any changes should be made to the act's timelines. The bill would require the Legislative Analyst to review the state board's implementation of these requirements, as provided. This bill contains other related provisions.</p> <p>Last Amended on 05/13/2009</p>	
<p><u>SB 317</u> <u>Simitian</u> (D)</p> <p>Fire Alarm Device Collection Act of 2009.</p>	<p>ASSEMBLY E.S. & T.M. 05/28/2009-To Com. on E.S. & T.M.</p>	<p>Existing law generally regulates the disposal of hazardous waste by the Department of Toxic Substances Control. This bill would enact the Fire Alarm Device Collection Act of 2009. The bill would require that, on or before July 1, 2011, each manufacturer, as defined, of a fire alarm device, as defined, that is marketed, distributed, offered for sale, or sold in this state make information available to consumers that describes where and how to return, recycle, and dispose of the fire alarm device through the use of a toll-free telephone number or Internet Web site, labeled on the device and included in the packaging.</p> <p>Last Amended on 04/02/2009</p>

		<p>of climate change impacts related to greenhouse gas emissions be deposited in this fund. The moneys in the fund would be available, upon appropriation, for expenditure by the Natural Resources Agency for specified projects through a competitive grant process . The bill would require that moneys from the fund be directed to the California Conservation Corps and local conservation corps for specified projects. The Natural Resources Agency would be required, by October 1, 2012 , to adopt guidelines for the distribution of moneys from the fund and to develop strategies for the sale of voluntary greenhouse gas emission offsets by the state and other opportunities for contributions by the public to the Voluntary Greenhouse Gas Emission Offset Program Fund.</p> <p>Last Amended on 05/04/2009</p>	
<p>SB 346 Kehoe (D)</p> <p>Hazardous materials: motor vehicle brake friction materials.</p>	<p>SENATE SECOND READING 06/01/2009-Read third time. Amended. To second reading.</p> <p>06/02/09 2 SEN SENATE BILLS- SECOND READING FILE</p>	<p>Existing law establishes the Department of Toxic Substances Control, in the California Environmental Protection Agency, with powers and duties regarding the management of hazardous waste. Existing law, administered by the department, prohibits the management of hazardous waste except in accordance with the hazardous waste control laws, including laws governing the removal of any mercury-containing vehicle light switch from a vehicle, and the regulations adopted by the department. A violation of the hazardous waste control laws is a crime. This bill would require the department to conduct a baseline survey, on or before January 1, 2013, of the concentration levels of nickel, zinc, copper, and antimony in motor vehicle brake friction materials. The bill would require the department, commencing on January 1, 2013, and at least every 3 years thereafter, to monitor the concentration levels of those metals in motor vehicle brake friction materials to ensure that those levels do not increase by more than 50% above the baseline levels established through the baseline survey. The bill would require the department to take specified acting if any of those metals increased by more than 50%, and would require the department to prioritize the presence of those constituents in brake friction materials for regulation, as specified. This bill contains other related provisions and other existing laws.</p> <p>Last Amended on 06/01/2009</p>

<p><u>SB 390</u> <u>Kehoc</u> (D)</p> <p>Solid waste: recycling market development.</p>	<p>SENATE APPR. SUSPENSE FILE 05/28/2009-Set, first hearing. Held in committee and under submission.</p>	<p>generators to include residential, small commercial, commercial, industrial, or agricultural customers of an electric service provider that use biomass electricity generating facilities.</p> <p>The California Integrated Waste Management Act of 1989, which is administered by the California Integrated Waste Management Board, establishes an integrated waste management program. The act creates the Recycling Market Development Revolving Loan Subaccount in the Integrated Waste Management Account and continuously appropriates the funds deposited in the subaccount to the board for making loans for the purposes of the Recycling Market Development Revolving Loan Program (program). Existing law makes the provisions regarding the loan program, the creation of the subaccount, and expenditures therefrom inoperative on July 1, 2011, and repeals them as of January 1, 2012, and provides for disposition of funds remaining after inoperation and repeal. This bill would prohibit the board from funding a loan under the program until it determines that the applicant has obtained all significantly, as determined by the board, applicable federal, state, and local permits and would extend the program and the continuous appropriation to July 1, 2021, and the repeal date to January 1, 2022, thereby making an appropriation. This bill contains other related provisions and other existing laws.</p> <p>Last Amended on 05/20/2009</p>	<p>Support</p>
<p><u>SB 486</u> <u>Simitian</u> (D)</p> <p>Medical waste: sharps waste.</p>	<p>ASSEMBLY E.S. & T.M. 05/28/2009-To Com. on E.S. & T.M.</p>	<p>The California Integrated Waste Management Act of 1989 requires a city's or a county's household hazardous waste element to include a program containing specified components for the safe collection, treatment, and disposal of sharps waste generated by households. The act requires the Integrated Waste Management Board, in consultation with specified entities, to develop model programs for the collection and proper disposal of drug waste. This bill would require, on or before July 1, 2010, and annually thereafter, a pharmaceutical manufacturer that sells or distributes medication that is self-injected at home through the use of hypodermic needles and other similar devices to submit to the board a plan for the safe collection and destruction of home-generated sharps waste containing specified elements. The bill would require the manufacturer and the board to post and maintain the plan on their respective Internet Web sites.</p> <p>Last Amended on 04/02/2009</p>	<p>Watch</p>

Bill ID/Topic	Location	Summary	Position
		<p>with respect to the potential benefits of school recycling programs. The bill would, until January 1, 2012, require each school district to establish a beverage container recycling program at each school campus and public office of that school district, but only to the extent that the district does not incur costs. Under the bill, a school district would be authorized to choose whether to operate its own beverage container recycling program, to contact its local Community Conservation Corps or another recycler to collect the beverage containers, to provide a beverage container collection program as a fundraising activity for the school district, or to continue a recycling program in existence on January 1, 2010 . Because the bill would impose new duties on school districts, it would constitute a state-mandated local program. This bill contains other related provisions and other existing laws.</p> <p>Last Amended on 05/04/2009</p>	
<p>SB 524 Correa (D)</p> <p>Solid waste: auto shredder residue.</p>	<p>SENATE CONSENT CALENDAR 05/28/2009-Read second time. Amended. To third reading. To Special Consent Calendar.</p> <p>06/02/09 103 SEN SPECIAL CONSENT CALENDAR #7</p>	<p>The California Integrated Waste Management Act of 1989 requires materials that require special handling, as defined, to be removed from major appliances and vehicles in which they are contained prior to crushing for transport or transferring to a baler or shredder for recycling. The act requires the California Integrated Waste Management Board (board), in consultation with specified entities, including the Department of Toxic Substances Control, to evaluate the use of recycling residue, which is defined as nonhazardous residue or residue treated to be nonhazardous that is a direct result of a metals recovery operation for the express purposes of recycling, for use as solid waste landfill cover materials or for use as extenders for currently used cover material. This bill would require the Secretary for Environmental Protection, on or before February 1, 2010, subject to the availability of funding, to establish an auto shredder residue working group, comprised of representatives of the board, the department, the State Air Resources Board, the State Water Resources Control Board, members of the auto shredder industry, landfill operators, and other interested stakeholders. The bill would require the working group to review and evaluate the existing practice of using treated auto shredder residue as alternative daily cover, determine the effects of the department's proposed revocation of the current regulatory classification of treated auto shredder residue and resulting prohibitions on its use as alternative daily cover, determine whether the current regulatory classification of treated auto shredder residue poses a threat to human health and the environment, identify the constituents in auto shredder residue that could pose health and safety or environmental problems when used as alternative daily cover in accordance with applicable regulations, recommend approaches to work with the auto industry to manufacture vehicles that produce less hazardous waste at end-of-life, and recommend changes to statute, regulation, or agency practice, if any, based on the working group's analysis. This bill contains other related provisions and other existing laws.</p> <p>Last Amended on 05/28/2009</p>

The bill would provide that the state assumes no liability for damages that may result from the project by authorizing the provision of subvention funds, or by the appropriation of those subvention funds, as specified.</p> <p>Last Amended on 04/13/2009</p>	
<p>SB 624 Romero (D)</p> <p>Solid waste: anaerobic digestion.</p>	<p>ASSEMBLY DESK 05/18/2009-In Assembly. Read first time. Held at Desk.</p>	<p>The California Integrated Waste Management Act of 1989 establishes an integrated waste management program administered by the California Integrated Waste Management Board that requires each city, county, and regional agency, if any, to develop a source reduction and recycling element of an integrated waste management plan, which is required to divert 50% of the solid waste subject to the element from landfill disposal or transformation, through source reduction, recycling, and composting activities. The act allows the source reduction and recycling element to include not more than 10% diversion through transformation, as defined. The act defines the term "compost" for the purposes of the act as the product resulting from the controlled biological decomposition of organic wastes that are source separated from the municipal solid waste stream, or which are separated at a centralized facility. The act defines the term "transformation" as meaning incineration, pyrolysis, distillation, or biological conversion, and excludes composting, gasification, or biomass conversion from that definition. This bill would define the term "anaerobic digestion" for purposes of the act. The bill would additionally define the term "composting operation" or "composting facility" as an operation or facility that produces compost, including, but not limited to, an entity that produces compost either aerobically or nonaerobically and an operation or facility that utilizes anaerobic digestion. The bill would revise the definition of the term "transformation" to exclude anaerobic digestion.</p> <p>Last Amended on 04/13/2009</p>	<p>Watch</p>
<p>SB 723 DeSaulnier (D)</p> <p>Electronic waste recovery payments.</p>	<p>ASSEMBLY DESK 06/01/2009-In Assembly. Read first time. Held at Desk.</p>	<p>Existing law requires the Integrated Waste Management Board, in collaboration with the Department of Toxic Substances Control, to establish on July 1, every two years, an electronic waste recovery payment schedule to cover the net cost of an authorized collector in operating a free and convenient system for collecting, consolidating, and transporting covered electronic wastes. Existing law requires the board to make those payments, as specified. This bill would instead require that the board, in collaboration with the department, establish an electronic waste recovery payment schedule to cover the net cost of an authorized collector on July 1 of every year. The bill would also delete an obsolete provision.</p>	<p>Watch</p>
<p>SB 730 Wiggins (D)</p> <p>Solid waste: fees.</p>	<p>SENATE THIRD READING 05/28/2009-Read second time.
